

Transport Planning Specialists

Covering London & The South East

Transport Dynamics are an innovative provider of traffic and transport planning advice. Our independent transport planning specialists are based in London and the south east.

We have an extensive track record in providing independent and innovative traffic and transport advice leading to planning consent and associated approvals. We advise developers, land owners, operators, retailers and co-consultants across the full range of land uses including agricultural, residential, mixed use, retail, commercial, health, education, energy, leisure and logistics. Over 80% of our work comes from repeat business with long term clients who we have worked with for many years.

We are able to assist and provide guidance with all stages of development projects from initial feasibility studies through to Transport Statements/Assessments, including; site and access design, servicing arrangements, Traffic Regulation Orders, Road Safety Audits, travel planning, the discharge of transport related conditions and highway infrastructure and detailed design.

Traffic and Transport Advice

Transport Dynamics are a group of specialist individuals who understand the planning process. Our staff have a proven track record of securing planning permissions throughout the UK and providing access, traffic and transport advice for development and regeneration projects.

We offer a comprehensive service to a wide range of private and public sector clients, providing advice for all types of development from early feasibility studies to planning approval, post consent negotiations and scheme construction.

We are able to provide advice on all stages of development projects from initial feasibility work through to occupation, including transport assessments, travel planning, discharge of transport related conditions and construction logistics.

We are interested in forging long term relationships. To this end we are always happy to discuss any traffic and transport query, however small. Further we are always happy to provide informal general advice to help unlock potential projects and future schemes.
